

CASTX

DIES AND TOOLS

Ensuring Quality

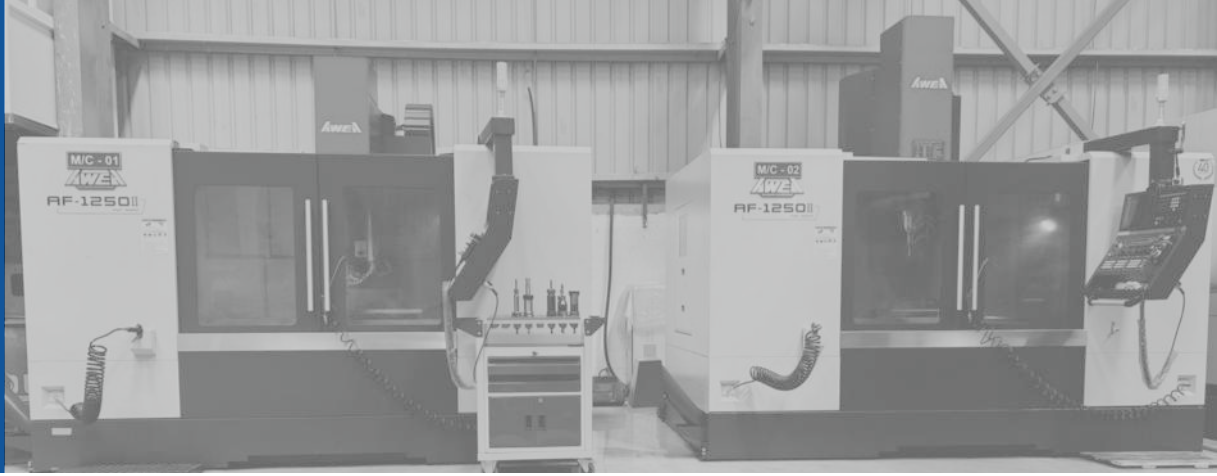

**Leading Manufacturer of
GRAVITY DIE CASTING DIES, PRESSURE DIE CASTING DIES,
LOW PRESSURE DIE CASTING DIES, PATTERN TOOLING**

Precision Dies | Reliable Performance | Trusted Solutions.

www.castx.in

OUR MISSION

To deliver world-class casting solutions through innovation, uncompromising quality, and continuous improvement—ensuring every product meets global standards and exceeds customer expectations.

CORE VALUES

Integrity in every commitment. Precision in every process. Excellence in every delivery. We believe in transparency, accountability, teamwork, and building long-term partnerships through consistent performance and trust.

ABOUT US

CASTX Dies & Tooling, established in 2016, specializes in advanced die casting dies (GDC, PDC, LPDC) and pattern tooling solutions across India. Backed by modern machinery & a highly skilled team, we deliver precision-engineered products with reliability & performance. Our process focuses on understanding customer needs, meticulous design, in-house trials, and timely delivery. We are committed to providing high-quality, efficient tooling solutions tailored to every requirement.

WHO ARE WE

CastX is a precision-driven Die Casting Dies & Pattern Tooling manufacturer focused on delivering high-performance tooling solutions. With strong technical expertise, advanced manufacturing capabilities, and a quality-first approach, we convert complex design requirements into reliable, engineered outcomes.

PRODUCTS

Gravity Die Casting Dies

CASTX DIES & TOOLS specializes in manufacturing high-quality Gravity Die Casting Dies for consistent and precise metal casting. Our expert team designs dies tailored to customer needs, ensuring excellent dimensional accuracy, smooth surface finish, and reliable performance across diverse industrial applications.

- Consistent casting quality
- Precision engineered die casting tools
- Advanced machining processes
- In-house trials for performance testing

Pressure Die Casting Dies

CASTX DIES & TOOLS manufactures high-quality Pressure Die Casting Dies designed for precision metal casting operations. Our team focuses on developing durable and accurate dies that ensure smooth production, consistent dimensional accuracy, and high-quality surface finish for a wide range of industrial components.

- Consistent casting quality
- Strict quality inspection
- High strength and durability
- Advanced CNC machining technology

Low-Pressure Die Casting Dies

CASTX DIES & TOOLS manufactures precision Low Pressure Die Casting Dies designed to deliver smooth metal flow and superior casting quality. Our team develops reliable dies that support controlled low-pressure casting processes, ensuring high dimensional accuracy, minimal porosity, and excellent surface finish for industrial components.

- Precision engineered casting dies
- Accurate die design and development
- Detailed inspection & quality testing
- Reliable performance in production

Pattern Tooling

CASTX DIES & TOOLS specializes in manufacturing high-quality Pattern Tooling designed to meet the precise requirements of casting industries. Our experienced team focuses on understanding customer specifications and developing accurate patterns that ensure reliable production and consistent casting results across various applications.

- Designed to improve casting efficiency
- High durability & long-lasting tooling
- Thorough in-house trials and inspection
- Strict quality control during production
